

# THE HEART OF THE WORLD IS IN YOUR HANDS

## A World Philosophy

### INTRO

Lets all awaken to a new dawn of awareness.  
As our eyes see our world as One,  
Let us smile on each other's uniqueness.  
All the obstacles we face, as we are One  
We can now overcome.

### VERSE 1

Lets nurture today a new tomorrow.  
When we act now we won't have to live in sorrow.  
Lets plant all our seeds of compassion early in our seasons here,  
So we can grow fresh fruits of caring everywhere.

### REFRAIN

Look inwardly and you will understand  
The heart of the world is in your hands.  
Your life will mean more when you do all you can  
To realize your place in the Master Plan.

### VERSE 2

We grow when we become larger than ourselves,  
When we hear the voice of others as our own.  
That's when we are in touch with the hearts of the world,  
And it's then that we never are alone.

### BRIDGE 1

Let us walk today together with a new-found trust.  
Let us break down the boundaries that separate us.  
Let us take down the walls that won't allow us to view  
The pathway to peace and the beauty of You.

### BRIDGE 2

The enemy we face is the one inside.  
Open the way so you can't hide  
The beauty of your true self that just wants to be  
In perfect harmony with all humanity  
And always free.

### VERSE 1

Lets nurture today a new tomorrow.  
When we act now we won't have to live in sorrow.  
Lets plant all our seeds of compassion early in our seasons here  
So we can grow fresh fruits of caring everywhere.

### REFRAIN AND CLOSING

Look inwardly and you will understand  
The heart of the world is in your hands.  
Your life will mean more when you do all you can.  
The heart of the world is in your hands.
